Yugen Jarwal

Backend Intern @ TATA Communications | Web Developer @ USTART

Gurugram, Haryana, India

Experience

Tata Communications

Back End Developer

June 2025 - Present (2 months)

New Delhi, Delhi, India

Working as a Backend Intern under the HR Analytics & Technology division at TATA Communications.

I'm responsible for implementing the backend architecture for an internal platform aimed at enhancing HR decision-making using data-driven insights. The project focuses on building scalable APIs and secure data handling systems to analyze and visualize employee metrics across the organization.
